At a glance: what to do

1. A structured home safety assessment covers flooring, lighting, stairs, bathroom hazards and pathways, before care begins (HC-FRM-006).
2. Each hazard has a remediation action, a responsible person and a deadline (HC-REG-001).
3. The home is reassessed on a set schedule, not only at the start (29.14).
4. Emergency access is confirmed (HC-FRM-007).

Stop and get help straight away if: care starts in a home with stairs and no handrail, and no assessment done.
