Facility rate this month: _____ / 1,000 patient-days			Last month: _____		12-month trend: ↑ ↓ →		Benchmark: 3–5 per 1,000 in acute wards	

THEMES FROM THIS MONTH'S HUDDLES

THREE ACTIONS FOR NEXT MONTH

Action	Owner	Due	Status

Formula. Rate = falls ÷ patient-days × 1,000. Count every fall, witnessed or not, injured or not. A rising rate with rising screening completion is often a reporting improvement, not a safety decline — say so on the sheet.

ASF standards: Universal Floor — falls prevention; Governance chapter — measurement, reporting, improvement
