1. Executive summary

2021 was ASF's first operational year. ASF published three further standards and launched its public self-assessment tool. In March 2021 it opened its first certification programme in Georgia. Within six weeks 35 facilities applied; 14 signed formal contracts; four completed the pilot and were accredited for two years.

2. Governance

ASF's governance is set out in its founding statutes and governance library (GOV, OPS, QMS and EV series). Accreditation decisions are taken by the Accreditation Decision Committee (ADC), which is structurally separate from survey teams.

3. Standards activity

- **Ambulatory clinic standard** — published 2021.
- **Long-term care standard** — published 2021.
- **Primary health clinic standard** — published 2021.

Public self-assessment tool

The self-assessment tool was launched on france-asf.fr. It runs in the browser, requires no account, and lets a facility measure itself against ASF standards and export a gap report.

4. Georgia certification pilot

ASF opened its first operational certification programme in Georgia in March 2021, with PHIG as

supporter and local partner. Applications and contracts are listed below. Dates are as recorded at the time of application or signature.
