

Pilot and Field Validation Summary

Version 3.0 · Restated 17 October 2026 · Replaces the version previously issued in this document set

1. Georgia certification pilot (2021-2023)

- Opened March 2021 with the Public Health Institute of Georgia (PHIG) as supporter and local partner.
- 35 facilities submitted applications between March and April 2021, plus two hospital applications in October 2022.
- 14 facilities signed formal contracts with ASF in 2021.
- Four facilities completed the pilot and were accredited for two years, ending in 2023: Dental Clinic Hebe, Smile Gallery, Ultramed and Dental Line.

The full list of applications and contracts is on the Accreditation Pipeline page.

2. Hospital accreditation pilot (2025-2026)

- Accreditation of Kutaisi Church Hospital and the National Health Organisation began in February 2025, under the newly approved standards.
- On-site surveys took place on 15 October 2026.
- The Accreditation Decision Committee's decisions are expected in November 2026.
- Revised standards are planned to be piloted in the third quarter of 2026.

3. Inter-rater agreement

This summary does not report inter-rater agreement statistics. No agreement figures are quoted until they can be supported by the underlying survey records. Earlier figures that appeared in this document were removed because they could not be traced to a record.
